Boston-based Web Developer and UX Designer who crafts minimal, easy to use interfaces.

Experience

Software Engineer @ Rentable Technology Corp.

Sep 2021 - Present | Boston, MA

Designed & coded key flows of the platform such as the introduction of a payment plan option for deposits. Implemented minimal interfaces that have increased overall user satisfaction with the platform.

Software Engineer @ ExxonMobil Corp.

Sep 2020 - Aug 2021 | Houston, TX

Designed and coded a web form for internal employees to request Zoom recording access permissions. Platform would automatically grant access for the user after a request was submitted. Platform is still used by any ExxonMobil employee who needs to make this type of request.

Software Engineer Intern @ ExxonMobil Corp.

May - Aug 2019 | Houston, TX

Designed and coded the Modern Technology Solutions team website. This website was used to provide several forms of media such as team information, blog posts, video content, and progress statistics. The site is still used by the team to distribute content & progress updates.
